Langauge

- English (Intermediate)
- Thai (Native)

Hobby

- Studying game systems
- Online video game
- Reading books
- Cooking
- Photography
- Play with duck

Education

- 2023 - present

Sripatum University

Interactive and game design

Experience

- Thailand Horror Jam 2025

Game | MARA

A game that participated in Thailand Horror Gamejam 2025. Created to learn team working and basic quest systems. A story-rich experience about a protagonist who enters a house and finds themself trapped in an unknown dimension.

- Developed quest system for horror gameplay flow
- Implemented player interaction system
- Designed basic AI behavior for enemy
- Collaborated in a team of 7 members

- Personal Project

Game | Scroll

Indie horror simulation with a dynamic social media-like content system. You find yourself trapped in an endless night with only your phone, while something lurks in your room.

- Built dynamic in-game social media system
- Designed scriptable-object-based architecture
- Implemented modular interaction system
