Sripatum University

Interactive and game design

Experience

- Thailand Horror Jam 2025

Game | MARA

A game that participated in Thailand Horror Gamejam 2025. Created to learn team working and basic quest systems. A story-rich experience about a protagonist who enters a house and finds themself trapped in an unknown dimension.

  - Quest system
  - Nav-mesh AI
  - Player interaction system

- Personal Project

Game | Scroll

Indie horror simulation with a dynamic social media-like content system. You find yourself trapped in an endless night with only your phone, while something lurks in your room.

  - ScriptableObject-base architecture
  - Dynamic social-like system
